

ISPCAN HUDDLE DELEGATE APPLICATION

Delegate Applicant Information

The ISPCAN Huddle is an innovative new, practice based in depth training concept for members only to complement ISPCAN's Flagship Congress program. It is a 360-degree, retrospective look into one case each year that gives us insights to learn, grow, and do better. This grand round type of learning with multidisciplinary tracks will develop each sector's response to be child centered, and finally come together to discuss collaboration, and CPS systems of care.

We are looking for ISPCAN Members from every sector with the opportunity for master classes in each specialty area. This will be an applied learning, sharing, and networking opportunity to create a community of practice that

lives on beyond this in person training. We have applications with limited spots (30-40 per sector) from all regions to make it competitive and ensure balanced representation of sectors. If you are interested, please take 20 minutes to complete all parts of this application.
